The Grayson correspondent of the Louisville Commercial says: The verdict of the jury in Grant's case was expected, though if the same trial and same evidence had been given elsewhere the officers would undoubtedly have been acquitted. Not that I do not believe that the officers of the horrible crimes perpetrated upon the two innocent girls, but the evidence against them itself was certainly insufficient. There is not the least doubt that all three of the parties—Ellis Grant, William Stone and George Falls—participated in the horrible deed of that fatal night, and the question of equity proving their guilt will always be a mooted one.

If this shall meet your approbation please notify us and we will make the needful arrangements for the lecture and for the distribution of such sum as may be realized therefrom among all the suffering poor without regard to creed or party.

It is with pleasure I announce to you as Commander-in-Chief of the militia of the State, that Col. John R. Allen and the officers and privates of the State Guards who have acted as all to the civil authorities have performed their duty. They have had a trying time, owing to the bad weather, and their presence has resulted in peace and good order. They have the thanks of all law-abiding citizens. The citizens of Carter county have shown marked respect to them, recognizing the fact that the law must be maintained. None regret the necessity of calling for their aid more than I do, and hope for those who have hitherto been engaged in trying to subvert the law that the sad lesson that has been given by the action of the mob last fall will never occur again; that they may never by an unlawful mob sacrifice the good, law-abiding people, and that there shall be no further necessity for any further demand upon your excellency to uphold and enforce the law. Yours, obediently,
